Detailed Expenses Report

Operating Vouchers, Payment Audit and Approvals

DOCUMENT 08 OF 14

Report Name / Screen:* Detailed Expenses

Seedha faisla:* Expense vouchers layout sahi hai; accounting cost vs cash out and categories verify karein.

Is PDF mein required fields, source se data ka flow, formulas, example amounts, access aur test cases document kiye gaye hain.

Important: Empty records ko fault nahi samjha gaya. Is report mein jo bhi improvement likhi hai woh design/verification requirement hai - screenshot se existing backend ka implementation confirm nahi hota.

Practical accounting blueprint • Roman Urdu • PKR examples only

Index - is PDF ke topics

1. Pehle se kya sahi hai 3
2. Kya add / change / verify karna hai 3
3. Data kahan se aaye ga 3
4. Required fields aur top filters 3
5. Sahi accounting formulas 3
6. Step-by-step transaction flow 4
7. Accounting events - income, expense aur cash alag 4
8. Example - sirf samajhne ke liye 4
9. Doosri reports se cross-check 4
10. Portal access aur security 5
11. Developer tests - kab sahi mana jaye 5
12. Saari reports par same accounting rules 5
13. Final developer instruction 5

Note: Index ke page numbers automatically final PDF ke mutabiq update kiye gaye hain.

1. Pehle se kya sahi hai

- Voucher, date, branch, category, title, payee, source, status, created-by useful hain.
- Payment source filter aur export useful.

2. Kya add / change / verify karna hai

- Gross / Tax / Net Expense, Paid Amount, Outstanding, Approved By, Paid By, Payment Method, Reversal Link.
- Posted/approved/incurred expense vs actual payment timing distinct.
- Supplier stock purchases inventory asset hain; vendor principal payment expense nahi (unless separately recorded service cost).
- No petty cash needed: cash expense direct cash drawer only if authorized.
- Attachment, receipt reference, category snapshot; cancelled/reversed separate.

3. Data kahan se aaye ga

Source module / event	Rule - kya read karna hai
Expense voucher	Authorized Expense Management source record and category/cost center.
Payment allocations	Cash drawer, named payment account, authorized split tenders.
Approval and reversal	Audit approvals, linked vouchers for corrections/reversals.

4. Required fields aur top filters

Table fields:* Voucher # | Date | Branch | Category | Title | Payee | Net Expense | Paid | Due | Method | Created / Paid By | Status

Top filters:* Branch | Category | Method | Voucher Status | Created By | Date Range | Search

5. Sahi accounting formulas

Net Expense

Gross eligible cost - reversals - recoverable tax (based on configured policy).

Outstanding Expense Payable

Approved expense incurred - valid applied payments - vendor credits.

Cash Expense Out

Only actual posted CASH expense payouts reduce cashier custody.

Total Expense by Category

Sum valid recognized net expenses in selected category and period.

Operating Expense Total

Selected operating expense categories; exclude payroll/commission/COGS if they are reported separately in P&L.

6. Step-by-step transaction flow

- 1. User voucher creates draft, attachment and category.
- 2. Approval (if required) before posting.
- 3. Expense incurred/posted -> recognized expense and payable if unpaid.
- 4. Cash/bank payout -> correct custody/account credit and payable reduction.
- 5. Reversal/void -> linked opposite entry, original still auditable.

7. Accounting events - income, expense aur cash alag

Conceptual posting view; actual ledger implementation mein linked Debit/Credit entries aur appropriate liability/asset accounts use hon.

Event	First impact	Second impact
Approved utility voucher 1,000	Expense +1,000	Payable +1,000
Cash payment 400	Payable -400	Cash Drawer -400, expense unchanged
Online payment 300	Payable -300	Named account -300

8. Example - sirf samajhne ke liye

Example PKR values testing ke liye hain; current production database ya screenshot ke verified amounts nahi.

Example Item	Amount / Result
Approved Electricity Expense	1,000
Cash Paid	400
Bank Paid	300
Unpaid Due	300
Recognized Expense	1,000
Cash Movement	- 400
Bank Movement	- 300

9. Doosri reports se cross-check

- Expenses paid cash = drawer cash expense out by actor.
- Expenses paid online = named account credits.
- Expenses recognized match Income/Expense and P&L selected operating overhead rows.
- No double counting payroll/commission or stock purchase as expense voucher.

10. Portal access aur security

Expense create/approve/payment separately permission controlled; reporting Admin branch and Super Admin global; cashier only own authorized expense payments.

11. Developer tests - kab sahi mana jaye

- Test 1: Voucher 1,000 paid 700 => recognized 1,000; due 300.
- Test 2: Credit stock purchase 5,000 => no direct operating expense.
- Test 3: Cash expense 400 -> drawer -400 exactly once.
- Test 4: Reversed voucher removed from net but history visible.

12. Saari reports par same accounting rules

- Posted row ke saath unique Source ID, Branch ID, actual user, date/time, status aur reversal reference hona zaroori hai.
- Valid transaction ko hard delete mat karein; linked reversal/refund se negative effect aur audit history maintain karein.
- Tax aur tips liability hain - Revenue/Operating Profit/Staff Commission base nahi.
- User Cash, Named Bank/Online Accounts, Revenue, Expense, Receivable, Payable aur Settlement alag ledgers/concepts hain.
- Report totals screen/CSV/PDF/Print sab par same filters aur same cutoff se match karein.
- Super Admin authorized all branches; Admin assigned branch; cashier/accountant own cash; settlement self-approval prohibited.

13. Final developer instruction

Existing SalonOS ki blue/white clean UI preserve karo. Report ko read-only rakho. Posting source module mein hi karo. Filters screen, CSV, PDF aur Print par identical apply karo. Har movement source reference, actor, branch, date-time, status aur original reversal se traceable ho. Frontend mock tests ke baad backend/database posting aur RBAC separately verify karo.

Scope: 14 requested PDF reports only. Petty Cash ka naya module nahi. Actual IFRS company Balance Sheet is package mein nahi - user-wise My Cash Balance Sheet hi required hai.
