Staff Performance Report

Units, Net Sales, Clients, Tips and Hours

DOCUMENT 11 OF 14

Report Name / Screen:* Staff Performance

Seedha faisla:* Performance table useful; source definitions and attribution consistency most important.

Is PDF mein required fields, source se data ka flow, formulas, example amounts, access aur test cases document kiye gaye hain.

Important: Empty records ko fault nahi samjha gaya. Is report mein jo bhi improvement likhi hai woh design/verification requirement hai - screenshot se existing backend ka implementation confirm nahi hota.

Practical accounting blueprint • Roman Urdu • PKR examples only

Index - is PDF ke topics

1. Pehle se kya sahi hai 3
2. Kya add / change / verify karna hai 3
3. Data kahan se aaye ga 3
4. Required fields aur top filters 3
5. Sahi accounting formulas 3
6. Step-by-step transaction flow 4
7. Accounting events - income, expense aur cash alag 4
8. Example - sirf samajhne ke liye 4
9. Doosri reports se cross-check 4
10. Portal access aur security 5
11. Developer tests - kab sahi mana jaye 5
12. Saari reports par same accounting rules 5
13. Final developer instruction 5

Note: Index ke page numbers automatically final PDF ke mutabiq update kiye gaye hain.

1. Pehle se kya sahi hai

- Employee code, direct/package units, clients, attributed net sales, commission, tips, worked/OT fields suitable.
- Branch, staff, catalogue item and dates filters good.

2. Kya add / change / verify karna hai

- Performed vs merely sold item count; completed service confirmation status.
- Package breakdown per assigned staff; one staff per component; no whole package duplication.
- Net attributed sales reconciled with Commission Report; service returns net out.
- Tips allocated vs tips paid vs due separate; tip never net revenue.
- Hours from approved attendance; productivity metrics can divide by valid worked hours only.

3. Data kahan se aaye ga

Source module / event	Rule - kya read karna hai
Sales attribution	Posted performed service/package lines + staff allocation snapshots.
Customers	Distinct canonical clients attached to valid transactions; repeats deduplicated per staff.
Commission and tips	Commission events and staff tip allocations/payouts.
Attendance	Approved worked minutes and approved OT.

4. Required fields aur top filters

Table fields:* Staff | Branch | Direct Units | Package Units | Clients | Attributed Net Sales | Commission Earned | Tips Allocated/Paid/Due | Worked Hours | OT

Top filters:* Branch | Staff | Catalogue Item | Date Range | Service Type | Status

5. Sahi accounting formulas

Units

Valid completed direct items + assigned package component units (not count package for every staff as full service).

Clients

Distinct customer IDs served by a staff member in period.

Attributed Net Sales

Sum net invoice-line/service allocation after discount and refunds; excludes tax/tips.

Sales per Worked Hour

Attributed Net Sales / Actual Worked Hours (show N/A if zero).

Tip Due

Tip Allocation - Tip Payout +/- approved reversals.

6. Step-by-step transaction flow

- 1. Service/package assigned to staff + valid invoice posted/fulfilled.
- 2. Post allocated net amount to staff performance and commission source once.
- 3. Linked cancellation/refund reverses both attribution and commission basis.
- 4. Tip allocation enters staff tip liability; payment clears it.
- 5. Attendance hours aggregate approved records with same date boundary.

7. Accounting events - income, expense aur cash alag

Conceptual posting view; actual ledger implementation mein linked Debit/Credit entries aur appropriate liability/asset accounts use hon.

Event	First impact	Second impact
Valid completed service net 900	Staff Attribution 900	Business revenue still only 900
Tip allocated 50	Staff Tips Payable +50	Not revenue, not commission
Tip paid 50	Cash/Bank -50	Tips Payable -50

8. Example - sirf samajhne ke liye

Example PKR values testing ke liye hain; current production database ya screenshot ke verified amounts nahi.

Example Item	Amount / Result
Completed Direct Units	2
Package Components Served	3
Unique Clients	4
Attributed Net Sales	7,000
Worked Hours	14h
Sales per Worked Hour	500 / hour

9. Doosri reports se cross-check

- Staff attributed sales = Commission Report eligible sales, same filter/timing.
- Sum all staff service attribution <= invoice allocated service sales; no package duplication.
- Tips allocations match Tips Management and liability ledgers.

- Hours/OT match Attendance Report.

10. Portal access aur security

Branch manager/Admin/Super Admin as authorized; individual staff self-only if staff report permission enabled.

11. Developer tests - kab sahi mana jaye

- Test 1: Two staff each working on 1 package -> package sales recognized once.
- Test 2: Refund 1 assigned service -> units/net attraction appropriately reversed.
- Test 3: Worked hours=0 => N/A, not division by zero.
- Test 4: Same client on 2 invoices => unique clients 1 for period.

12. Saari reports par same accounting rules

- Posted row ke saath unique Source ID, Branch ID, actual user, date/time, status aur reversal reference hona zaroori hai.
- Valid transaction ko hard delete mat karein; linked reversal/refund se negative effect aur audit history maintain karein.
- Tax aur tips liability hain - Revenue/Operating Profit/Staff Commission base nahi.
- User Cash, Named Bank/Online Accounts, Revenue, Expense, Receivable, Payable aur Settlement alag ledgers/concepts hain.
- Report totals screen/CSV/PDF/Print sab par same filters aur same cutoff se match karein.
- Super Admin authorized all branches; Admin assigned branch; cashier/accountant own cash; settlement self-approval prohibited.

13. Final developer instruction

Existing SalonOS ki blue/white clean UI preserve karo. Report ko read-only rakho. Posting source module mein hi karo. Filters screen, CSV, PDF aur Print par identical apply karo. Har movement source reference, actor, branch, date-time, status aur original reversal se traceable ho. Frontend mock tests ke baad backend/database posting aur RBAC separately verify karo.

Scope: 14 requested PDF reports only. Petty Cash ka naya module nahi. Actual IFRS company Balance Sheet is package mein nahi - user-wise My Cash Balance Sheet hi required hai.
